

Eyes in Finger Tips.

The gray matter brain cells of perception have been dissected out of finger tips of the blind. Stand point up beneath all the ridges plainly seen with a magnifying glass on the skin of the inside of the finger ends are the so-called corpuscles Pacini, which are arranged in the act semblance of the keys of a piano and are said by Meissner to creep and give forth a different sound every age of each person. This Pacinian corpuscle, which contains within its lining membranes a nerve-trunk and an artery and a vein, lines all the tactile surfaces of the body, particularly the inner finger and thumb tips.

A medical man recently assisted an autopsy on a person blind from birth, and he sought to discover the scalp and microscope the secret of the extraordinary delicate touch the blind man had acquired during life. Sections perhaps a sixteenth of an inch thick were carefully sliced off the inner surfaces of the index and middle fingers of the right hand. Under high power these showed, instead of single nerve-trunk and artery and vein of the average man, a most complex and delicate ramification of nerve filaments, dainty and minute nerve twigs in immense numbers branching from the main stem. Through constant use the finger tips of the blind acquire this unusual development with more and more perfect performance of function.—The Microscope.

Accomplished.

"It's very difficult to tell a good cantaloupe without tasting it," remarked the caller.

"Yes," replied Mrs. Sinnick; "but our cook can do it. At all events she never lets one get to the table."—Washington Star.

He spoke slowly, almost painfully, as one not accustomed to much talking.

And yet he had been married thirty years.—Indianapolis Journal.

Venom Inhaled with the Air.

And imbued with the water of a malarious locality, has still a certain antidote. Experience sanctions confidence in Hostetter's Stomach Bitters as a preventive of this scourge. All over this continent and in the tropics it has proved itself a certain means of defense, and an eradicant of intermittent and remittent fevers, and other forms of malarial disease. Nor is it less effective for kidney troubles, constipation, rheumatism and nervousness.

A man may smile and smile and still be a temperance advocate.

I cannot speak too highly of Pilo's Cure for Consumption.—Mrs. FRANK MOORE, 215 W. 23d St., New York, Oct. 29, 1894.

MRS. ELLA M'GARVY,

Writing to Mrs. Pinkham.

She says:—I have been using your Vegetable Compound and find that it does all that it is recommended to do. I have been a sufferer for the last four years with womb trouble, weak back and excretions. I was hardly able to do my household duties, and while about my work was so nervous that I was miserable. I had also given up in despair, when I was persuaded to try Lydia E. Pinkham's Vegetable Compound, and to-day, I am feeling like a new woman.—Mrs. ELLA M'GARVY, Neebe Road Station, Cincinnati, O.

The Young Plantation Cotton Seed HULLER AND SEPARATOR.

The result obtained from the use of our machine has been so very satisfactory that we enter upon our THIRD SEASON with a feeling of great confidence. Our machines are durable and thoroughly effective. The ground kernels are left in a fine condition for distributing as a fertilizer. The hulls are valuable food for cattle. Descriptive pamphlet with testimonials from prominent cotton planters throughout the Southern States, together with sample of product from our machine, will be forwarded on application.

PRESIDENT BORDA IS KILLED

WAS IN ATTENDANCE ON NATIONAL FETE IN MONTEVIDEO.

THE ASSASSIN WAS AN ANARCHIST.

Before Was Borda's Life In Jeopardy, But He Was Miraculously Saved.

Popular With the People.

During a national fete which was held at Montevideo, Uruguay, Wednesday, President J. Idiarte Borda was shot and killed by an anarchist.

The assassination of the president occurred as he was leaving the cathedral, where a Te Deum had been sung. President Borda died almost immediately after he was shot.

The assassin is named Arredondo, supposed to be an anarchist, and was arrested.

Senor Cuestas, president of the senate, has assumed the presidency of the republic ad interim.

Senor J. Idiarte Borda was elected president of Uruguay for the term extending from March, 1894, to 1898.

The fete at which he was assassinated was being held in celebration of the independence of Uruguay, which was achieved on August 25, 1825.

The murdered president was about fifty years of age. He was married and had a family and also a brother who is an officer in the Uruguayan army. He was elected three years ago, being a "combination candidate" of several parties.

So far as known he had not been very popularly identified with the people nor had he held any number of important offices. His elevation to the chief magistracy is said to have been distasteful to the more advanced element of the people. Much interest attaches to the nationality of the assassin of the president.

An attempt was made to assassinate the president on the afternoon of April 1st last. An unknown man met President Borda on the street and shot at him. The president escaped without injury and the criminal was captured.

On that occasion the president, accompanied by his aid, Lieutenant Colonel Turrene, had been horseback riding. As he dismounted in front of the government palace a youth approached him and drew a pistol. Before the trigger could be pulled Lieutenant Colonel Turrene struck up the arm of the would-be assassin and the ball passed over the president's head.

Another attempt to assassinate him was made on May 20th, when he received a bomb sent to him from La Plata, Argentine. It was in a box and so arranged that it would explode when the box was opened. Fortunately suspicion was aroused and the box was turned over to the police and destroyed.

POLICE AND NEGROES FIGHT.

Bloody Riot Precipitated at Charleston Cotton Mills.

In the Charleston cotton mills, at Charleston, S. C., where colored labor is employed, fully 100 negroes met at night when work is stopped to prevent the white ex-operatives from attacking the negro men and women as they march out of the mill.

Wednesday afternoon as the workmen were leaving a policeman went to arrest a negro, when he was mobbed by the whole gang. Two other officers rushed up, and the three were beaten with sticks and stones. The policeman did not shoot for fear of killing the children, but managed to knock down a dozen negroes with clubs.

The fighting was becoming furious and the riot call was sent in to police headquarters. This brought the entire force, and the mob dispersed.

WAGES WERE TOO LOW.

Hungarian and Italian Colliery Men at Hazelton, Pa., Strike.

The Hungarians and Italians employed at the shippings and canal at Van Winkle's Colliery at Hazelton, Pa., struck Wednesday. Dissatisfaction has prevailed there for some time.

The men say the price of provisions is going up and that they want an advance in wages. Superintendent Rodenick has asked to appoint a committee and he would confer with them.

FALLING WALLS KILL FOUR.

Disastrous and Fatal Blaze Occurs at Hazelton, Pa.

Fire at Hazelton, Pa., Thursday evening caused the death of two firemen, the death of two boys, the loss of \$165,000 worth of property, injury to two firemen and created a panic in the Seventh Avenue hotel.

Several hours after the fire had been subdued and the firemen were coupling up their hose, the wall of the Edmondson & Perrine building, three stories high, fell, burying under the debris two firemen.

Two boys, who were watching the firemen work, are also supposed to be under the fallen walls.

KEYSTONE REPUBLICANS JOYFUL.

In State Convention They Claim Honor of Bringing Prosperity.

The Pennsylvania state republican convention met in Harrisburg Thursday to nominate candidates for state treasurer and auditor general. The hall was well filled when the proceedings began.

The convention organized by the election of State Chairman Elkins as temporary chairman. Chairman Elkins congratulated the party on its victory last November and its prospects of success in Pennsylvania this fall.

Referring to the state issues and the action of the legislature on the reform bills presented, he closed by saying:

"With more gold on the Klondike, gold in the harvest fields, the republican party directing the administration of national affairs, the Dingley bill on our statute books and McKinley holding the reins of government, peace and prosperity shall dwell within our borders, let us hope, forever."

The platform adopted ratifies and reaffirms the doctrines enunciated in the national platform adopted at St. Louis in 1896 and approved by the people in the last presidential election.

In addition it says: "We rejoice with the people of the nation upon the passage of the Dingley tariff bill. Its enactment redeems the pledges made by the republican party to our prostrate manufacturing, commercial and business interests and holds out to them the bright promise of prosperity and material development, such as has never attended upon legislation designed for the protection of home industries and the preservation of the home markets."

"Dollar wheat" has sounded the death blow of the "free coinage" heresy. In the late presidential campaign the strongest bid made for the agricultural vote by the democratic party was the promise that their success in that election would raise the market price to one dollar per bushel—payable in silver. They met overwhelming defeat at the polls and the farmer now receives for his wheat one dollar a bushel—payable in gold. The dollar he received will buy in the market two dollars and thirty-five cents worth of silver, as measured by the coinage value of that metal. We pledge ourselves anew to the republican doctrine of sound money and an honest dollar."

AFRIDIS HOLD KHYBER PASS.

Insurgents Capture and Burn a Well Garrisoned Post.

Advices of Thursday state that Fort Lundikola, situated at the extreme end of the Khyber Pass, in the northern part of India, and garrisoned by 300 men of the Khyber Rifles, was attacked and burned by the Afridis on Tuesday.

The famous Khyber Pass, leading from Afghanistan into India, has now fallen completely into the hands of the insurgent tribesmen.

The governor general of India, the earl of Elgin, has telegraphed to the government at London confirming the news of the capture of Fort Lundikola, adding that one native officer was killed and one wounded.

Continuing the governor general announces that nearly all troops at Fort Ali-Musjid have reached Jamrud. The soldiers succeeded in retreating with their arms.

The following message was sent by the queen to the viceroy stationed at Simla:

"I am grieved at the loss of my brave officers and men. I trust that the wounded are doing well. It is most gratifying to see how well my troops have behaved. The conduct of all of my troops has been admirable."
VICTORIA.

WHEAT BOUNDS UP.

September Options Reach the High Figure of \$1.03 at Chicago.

A Chicago dispatch says: Wheat shot upward again Thursday. September, which closed Wednesday night at 96 3/4c, started on the regular board with rates all the way from 98 1/2c to \$1. Within five minutes it was selling at \$1.03.

The market was very excited, but not broad. Before the upward rush ceased, the quotation was \$1.03 for September. Today was the first time the bulge had carried the price past the dollar mark in Chicago, dollar wheat having only been just touched for a moment a few days ago.

Opening quotations at Liverpool showed an advance equal to 2 1/2c per bushel.

A HEAD-END COLLISION.

Engineer Fatally and Others Seriously Hurt—Many Cars Smashed.

A special from Birmingham, Ala., says: A head-end collision took place Thursday morning at 6:15 o'clock on the Southern railway, three miles west of Eden, 30 miles from Birmingham. Freight train No. 45, bound for Birmingham, from Atlanta, collided with an extra freight train going east. Both engines were badly damaged and ten cars broken up.

John Cheves, of Atlanta, engineer on No. 45 was fatally hurt. About a dozen others of the train crews were more or less seriously injured.

The Mutual Loss.

Drummer (at Moonshineville, Ky.)—"Good morning, Mr. Cross Roads. How's business?"

Storekeeper (disconsolately)—"Business is mighty poor—mighty poor. You see, a new store started up in opposition to me, and, of course, I couldn't stand that; so I just gave my friends the wink, and they commenced killing off his customers, but he had more trade than I kalkerlated on, and when his customers began to shoot back it made a purty even fight, and both sides killed each other off so fast that now there ain't either of us got any customers."—New York Weekly.

Fertile Soil.

"Things grow well out here?" asked the stranger of the Kansas farmer.

"Grow? Look at that big hill over there. That war a hole in th' groun' when I kilm here."—Detroit Free Press.

No Use to Cry.

No use to fret and worry and iten and scratch. That won't cure you. Tettering will. Any sort of skin disease, Tetter, Eczema, Salt Rheum, Ringworm or mere abrasion of the skin. At drug stores, or by mail for 50c. In stamps from J. T. Shuptrine, Savannah, Ga.

More men have been self-undone than have been self-made.

Beware of Ointments for Catarrh That Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure to get the genuine. It is taken internally, and is made in Toledo, Ohio, by F. J. Cheney & Co. Trial bottles free. Sold by Druggists; price, 50c. per bottle. Hall's Family Pills are the best.

A Prose Poem.

ALABAMA LADIES

DON'T LIE

Mrs. W. A. Garrett

Oak Lowery, Ala., writes: Have used Dr. M. A. Simmons' Liver Medicine in my family for 10 years, with good results. I think it is stronger than "Zeilin's" or "Black Draught."

Cramps

Are caused by an irritation of the nerves. They are local spasms, frequently the result of uterine disease. There are pinching, gnawing and contractive pains in the region of the stomach extending to the back and chest. They are often the symptom and effect of indigestion. Dr. M. A. Simmons' Liver Medicine should be used to stimulate the digestive organs and Dr. Simmons' Squaw Vine Wine to give immediate relief and permanent cure.

After the old proprietors of the article now called "Black Draught" were by the United States Court enjoined from using the words constituting our trade name—does not equity require that they stand on their own trade name and merits (if any) of their article, and not seek to appropriate the trade for our article called for and known as Dr. Simmons' Liver Medicine, by publishing the picture of another Dr. Simmons on their wrapper and falsely advertising that their article "Black Draught" was established in 1840, that being the year in which our article was established, while no one ever heard of "Black Draught" till after 1875. Why do they advertise that, falsehood and associate their article with ours (having the picture of Dr. M. A. Simmons on it) by their publication, the picture of another Dr. Simmons, if not done to unfairly appropriate our trade? Is not the motive apparent?

Profr. B. Riley

San Antonio, Tex., says: My wife has used Dr. M. A. Simmons' Liver Medicine many years for Sick Headache and never fails to buy a package when she expects to travel. It saves one from taking injurious drugs. For 15 years it has been a necessary medicine in my house.

Caution. Don't be fooled into taking cheap worthless stuff. If the merchant tells you "it is just the same" as Dr. M. A. Simmons on it by their publication, the picture of another Dr. Simmons, if not done to unfairly appropriate our trade? Is not the motive apparent?

off on you a wholly different article.
